

Year 4 Homework Anglo-Saxon Shield Project

Your Homework for the half term holidays is to create either an Anglo-Saxon, Viking or Norman shield, in preparation for an Anglo-Saxon, Viking day we will have next term (details for this will follow).

You will need to create the structure of your shield first, which can be made out of cardboard, paper, or anything else that will form its main shape. After, you will need to design the appearance of your shield, considering decorative detail, that would show you are either an Anglo-Saxon, Dane (Viking) or Norman warrior. This can be done with paint, felt tip pens or colouring pencils.

You have the holidays plus an extra week to complete this task and it will need to be brought in by Tuesday 27th February. If you need any help with this, including materials that you might need, please come to speak to your teachers, who will be able to get you started.

Please see below for information to help you create and design your shield.

Best of luck.

The Year 4 Team.
