

Year 3 Project Homework

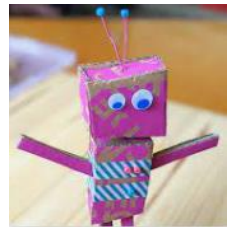

Next term our topic is 'Rockin' Robots'.

To prepare for this exciting topic, we would like you to make and name your own 3D mini robot.

What does my 3D mini robot need to be made from?

You can make your robot from anything! Cardboard, paper, recycling materials or anything you can think of that you can easily join together. You can decorate your robot however you like.

What size does my robot need to be?

Your robot should be no larger than this A4 piece of paper so we can display everyone's robot in the classroom.

When do I need to bring my 3D mini robot to school?

Please bring your named 3D mini-robot into school by Monday 26th February.

We are really looking forward to seeing your creations!

If you have any questions about this homework project, please speak to your class teacher.

Mrs Dangerfield, Mrs Dendy-Taylor and Mrs Rowley
